PROFESSIONAL SUMMARY

Computer Science undergraduate with a **9.30 CGPA** focused on **Java backend development** and software engineering. Strong foundation in **Core Java, OOP, Data Structures & Algorithms, SQL, JDBC, REST APIs, and Spring Boot**, with hands-on experience building Java and database-driven applications. Seeking an entry-level Software Engineer role to apply backend development skills and contribute to building reliable software solutions.

EDUCATION

Malla Reddy University
B.Tech in Computer Science Engineering — CGPA: 9.30

Hyderabad, Telangana
2023 – 2027

TECHNICAL SKILLS

Programming Languages: Java, Python, SQL

Core Java: OOP, Collections, Exception Handling, Generics, Multithreading, Java 8+

Backend: REST APIs, JDBC, Maven, Spring Boot

Databases: MySQL, MongoDB, DBMS

CS Fundamentals: Data Structures & Algorithms, Operating Systems, Computer Networks

Tools: Git, Postman, Visual Studio Code

PROJECTS

Mentivox – AI Placement Preparation Platform

Backend / REST APIs / Database / AI

- Built a placement preparation platform with mock interviews, learning roadmaps, and interview practice features for students preparing for software roles.
- Developed backend REST APIs for user login, profiles, learning modules, and placement data, connecting the main features of the application.
- Connected the application to a database for storing user details, learning content, and application information with structured data access.
- Added AI-based interview suggestions to provide users with additional practice guidance while preparing for placement interviews.

Gym Nexus – Gym Management System

Java / JDBC / MySQL

- Built a Java Swing application to manage gym members, trainers, memberships, and services using Java, JDBC, and MySQL.
- Applied Object-Oriented Programming concepts including inheritance, abstraction, encapsulation, and polymorphism to organize application components.
- Connected the application to MySQL using JDBC and implemented CRUD operations for managing member, trainer, membership, and service records.
- Developed database-based operations for adding, updating, viewing, and managing gym records through the application interface.

Achievements & Certifications

- Data Structures and Algorithms using Java – Infosys Springboard
- Database Management Systems – Scaler Topics
- Third Place Winner – College-Level Hackathon 2025
- Participant – Smart India Hackathon 2024
- Winner, Technovanza Technical Quiz 2024
